Yes we did receive recovery mission assignment yesterday for \$60k. The 64k was funds we expended to learn forward early before we received the mission assignment to deploy to the field (so cercla funds)

Good morning Steve,

Quick question:

Region 6 Harvey report states that R6 received a Recovery Mission Assignment for \$60,304.

In the R6 SitRep, under "funding" (updated October 2, 2017), there is a Non Mission Assignment category showing \$64,200.

So the question I'm being asked is why is a "Non Mission Assignment" listed on the MA list, and why is the \$60,304 of a new MA not listed.

Don't shoot the messenger, just asking

Michael Faulkner
